Testing and Automation Tools: Qmetry, WebDriverIO, BrowserStack, Mailosaur

EXPERIENCE

Full-Stack Developer and Support Engineer **July 2025 - Present**

3S Design

Built and maintained scalable full-stack solutions integrating React UI with a Laravel and MySQL backend, implementing critical software fixes and deployments to support business operations and growth in a high-pressure Agile team environment.

- Developed a route mapping feature using a location sorting algorithm with Google API implementation
- Implemented a marketing campaign feature with email scheduling, increasing customer outreach.
- Redesigned and optimized an email templating interface to improve usability and minimize user errors.
- Optimized full-stack applications, drastically reducing load times in key areas.
- Collaborated closely with clients to define project requirements, ensuring solutions aligned with business needs.
- Provided assistance and solutions for customers resolving software issues, installations, and IT support.

Quality Assurance Intern **December 2024 - June 2025**

XYPRO Technology Corporation

Created manual test cases in Qmetry and automated API/frontend tests using Java and JavaScript in an Agile environment. Logged detailed Jira bugs and authored test plans with linked cases to track fixes and resolution.

- Led successful installation of a new feature on Linux and Windows systems, providing critical feedback that improved the product installation process.
- Supported regression testing for a major release by identifying and assisting resolution of failed test cases.

Customer Support Intern **June 2024 - December 2024**

XYPRO Technology Corporation

Designed a data analysis tool for extrapolating yearly, quarterly, and monthly support data. Led a detail-oriented overhaul of outdated documentation. Managed documentation changes and Jira tickets in User Acceptance Testing of new product versions.

EDUCATION

Bachelor of Science in Computer Science, Minor in Mathematics **January 2022 - May 2026**

University of North Dakota, GPA 3.79 / 4.0
